

**Table 4:** Description of mandatory center-of-body tracking CDF fields recorded per frame. Any description ending with a <sup>\*</sup> is repeated once per player per frame. The coordinate system is defined in Paragraph 3.3 where the x axis is the sidelines and the y axis the goal lines. Note that {i} is used as an index for the items in a list. Any type ending with a <sup>‡</sup> may be null when the subject is occluded, off-camera or otherwise not captured in that frame.

| Root                          | Field     | Description                                                                                          | Type                      |
|-------------------------------|-----------|------------------------------------------------------------------------------------------------------|---------------------------|
|                               | frame_id  | Unique frame identifier                                                                              | Integer                   |
|                               | timestamp | Timestamp of the frame in UTC                                                                        | String                    |
|                               | period    | Period of the match (first_half, second_half, first_half_extretime, second_half_extretime, shootout) | String                    |
| match                         | id        | Unique match identifier                                                                              | String                    |
| teams/{home away}             | id        | Unique identifier for the home or away team <sup>*</sup>                                             | String                    |
| teams/{home away}/players/{i} | id        | Unique identifier for a player <sup>*</sup>                                                          | String                    |
| teams/{home away}/players/{i} | x         | x location of the player on the pitch (m) <sup>*</sup> .                                             | Float / null <sup>‡</sup> |
| teams/{home away}/players/{i} | y         | y location of the player on the pitch (m) <sup>*</sup> .                                             | Float / null <sup>‡</sup> |
| ball                          | x         | x location of the ball on the pitch (m).                                                             | Float / null <sup>‡</sup> |
| ball                          | y         | y location of the ball on the pitch (m).                                                             | Float / null <sup>‡</sup> |
| ball                          | z         | z location of the ball on the pitch (m).                                                             | Float / null <sup>‡</sup> |
